Om

I bow to the two lotus feet of the masters who teach the good knowledge showing the way to Self Awakening, that act as the jungle physician, removing the poison of ignorance caused by conditioned existence.

I prostrate before Patanjali, whose upper body has a human form, holding a sword of discrimination, a wheel of light representing infinite time, and the conch shell representing Divine sound, appearing radiant white with a thousand heads.
O incarnation of Adisesa, my salutations to thee.
